

2026 COMMITMENT CONTRACT - SUPERMODIFIED DIVISION

This Commitment Contract ("Agreement") is entered into between Oswego Speedway and the Supermodified car owner for participation in the 2026 racing season.

PURPOSE

The purpose of this Agreement is to reward committed Supermodified teams through an increased guaranteed minimum weekly purse, while maintaining strong car counts and enhancing the overall quality of competition at Oswego Speedway.

AVAILABILITY & FEE

A total of twenty-four (24) Supermodified Commitment Contracts will be offered for the 2026 season. The cost of participation is \$100, payable by the Supermodified owner to Oswego Speedway.

TERMS & CONDITIONS

The Supermodified owner shall participate in all Oswego (non-wing) point races (feature events) in the 2026 racing season, with one (1) missed event permitted. Oswego Speedway guarantees a minimum feature payout of \$900 to any Supermodified Commitment car finishing below that amount. To be eligible for the guaranteed minimum payout, the car must take the green flag and start the feature event. If a commitment car is present at the event but does not take the green flag at the start of the feature, the payout will be \$450. This contract guarantees you a weekly preferred pit stall at no additional cost. Classic Weekend is excluded from this Agreement. All benefits, guarantees, and obligations outlined herein apply to regular-season events only.
